PRIORITY OF ACCESS

All Western Adelaide Shores Partnership Preschools operate a Priority of Access procedure to manage enrolments where the demand for preschool places exceeds the centre capacity. This aims to support all local preschools and equitable access by families to a preschool service, when limited vacancies exist.

Priority is given to enrolments that meet any of the following criteria:

Priority 1
a. Children who live within the kindergarten’s Priority of Access areas.
b. The circumstances of the child and the family, such as a child’s special rights, cultural, linguistically diverse backgrounds (at the discretion of the Director)

Priority 2
a. Children who are cared for by a family day care provider, childcare or other carer in the designated priority catchment area OR
b. Children enrolled or siblings are enrolled at a local feeder school OR
c. Children whose siblings have previously attended the preschool previously OR
d. Children who already attend an Associated Program at the preschool – e.g. playgroup, occasional care
